

DIBELS Error Pattern Study

Phoneme Segmentation Fluency (PSF)

- Does the student know how to segment phonemes or does the child simply repeat the entire word back to the examiner?
- How many times does the student partially segment rather than completely segment the word? When does the student partially segment?
- How accurate is the student in segmenting phonemes? What percentage of the attempted phonemes is correct?
- How fluent is the student in segmenting phonemes? How many phonemes did the student attempt in one minute?
- How accurate is the student's knowledge of initial sounds?
- How accurate is the student's knowledge of ending sounds?
- How accurate is the student's knowledge of vowels?
